

These tables are based upon immersion tests carried out under static conditions at 68°F (20°C).

They should only be considered as a guide to the performance which might be expected under practical conditions.

In these tables, the following nomenclature has been used:-

- (Ex) Excellent - Suitable for all reasonable applications including immersion
- (G) Good - Suitable for applications involving immersion for short periods, splashing and contact with fumes.
- (F) Fair - Suitable for use in environments contaminated by the chemical or in situations where accidental splashing can be removed either by cleaning or, in the case of volatile solvents, by evaporation.
- (P) Poor - Not suitable for any applications involving contact with the chemical itself or fumes evolved from it.
